

# 10FT HALF HEIGHT OFFSHORE CARGO BASKET

## Looking for the benchmark in offshore half-height cargo baskets?

Our fully certified range is available in various sizes and load capacities, designed to meet the highest international safety standards. Engineered for safe and easy operations, these baskets are ideal for transporting or storing drums and hazardous fluids between onshore and offshore installations. Versatile, safe, and reliable, trusted by offshore leaders worldwide.

## Why choose our offshore basket?

- DNV 2.7-1 certified and internationally compliant
- Safe, ergonomic, and space-efficient design
- Delivered in "Fit to Use" condition with certified sling set
- Trusted by leading offshore companies worldwide

## Key applications

- Transporting drums and hazardous fluids from onshore to offshore
- Storage and handling of offshore equipment and cargo
- Ideal for oil & gas platforms, supply vessels, and logistics yards

## Standard Features:

- Best-in-class loading capacity, durability, and ease of handling
- Optional cargo restraining net for added safety
- Equipped with internal swivel tie-down points and external swivel tag line rings for secure cargo transport
- Supplied in "Fit to Use" condition with DNV 2.7-1 certified sling shackle set
- Stackable design compatible with most CCUs – ideal for limited deck or yard space
- Built to withstand harsh offshore environments and ensure safe, reliable transportation of goods and equipment
